BLASTLINE INSTITUTE

Why Choose Our AMPP ICA Blaster & Painter Course?

Gain internationally recognized AMPP Certification

(Formerly NACE)

AMPP was created when NACE International and SSPC the (Society for Protective Coatings) merged in 2021

Master the fundamentals of surface preparation and coatings application

The AMPP ICA Course conducted by Blastline Institute offers a comprehensive exploration into the principles and practices of industrial coating application. Designed for professionals seeking to advance their expertise, this program combines theoretical knowledge with practical application, ensuring participants are well-equipped to meet industry standards. With a focus on quality, safety, and efficiency, this course is an essential step for those committed to excellence in the field of industrial coatings.

Learn the latest industry standards and best practices

A digital 3D painting simulator is added to this Course for enhanced experience and faster skill development.

Enhance your career prospects and earning potential

Course Curriculum

Surface Preparation (Blaster)

L1 - Surface Preparation Fundamentals

L2 - Examining the Substrate

L3 - Pre-Cleaning

L4 - Ambient Conditions

L5 - Hand & Power Tool Cleaning

L6 - Dry Abrasive Blasting

L7 - The Abrasive Blasting Process

L8 - Abrasive Type & Properties
Coating Application (Painter)

L1 - Reasons for Coating

L2 - Coating Fundamentals

L3 - Curing Mechanisms

L4 - Receiving & Storing Coatings

L5 - Mixing & Thinning Coatings

L6 - Coating Application Considerations

L7 - Coating Application Equipment

L8 - Monitoring & Measurement

Safety Modules
Applicable to Coating Application & Surface Preparation

L9 - Safety Awareness

Your Path to Success Starts Here

**Course Eligibility: SSLC/ +2**

**Course Duration: 5 Days**
